SECTION 4: First aid measures

4.1 Description of first aid measures
Inhalation: Move to fresh air. Keep at rest. If not breathing, give artificial respiration. If breathing is difficult, give oxygen. Get medical advice/attention.
Skin contact: Take off contaminated clothing and shoes immediately. Wash off with soap and water. If skin irritation persists, call a physician. Wash contaminated clothing before re-use.
Eye contact: Rinse immediately with plenty of water, also under the eyelids, for at least 15 minutes. Get medical advice/attention.
Ingestion: Rinse mouth. Do not induce vomiting. Drink 1 or 2 glasses of water. Get medical advice/attention.
Additional advice: First aider needs to protect himself. See also section 8 Never give anything by mouth to an unconscious person. Show this safety data sheet to the doctor in attendance. Treat symptomatically. When symptoms persist or in all cases of doubt seek medical advice.

4.2 Most important symptoms and effects, both acute and delayed
Inhalation: Vapours may cause drowsiness and dizziness. May cause irritation of respiratory tract. Inhalation of high vapour concentrations may cause symptoms like headache, dizziness, tiredness, nausea and vomiting. May cause heritable genetic damage. May cause cancer.
Skin contact: Causes skin irritation.
Eye contact: Contact with eyes may cause irritation.
Ingestion: May be fatal if swallowed. May cause cancer. Ingestion may cause gastrointestinal irritation, nausea, vomiting and diarrhoea.

4.3 Indication of any immediate medical attention and special treatment needed
When symptoms persist or in all cases of doubt seek medical advice. In the event of a high pressure injection injury, worker should obtain immediate medical assistance.

SECTION 5: Firefighting measures

5.1 Extinguishing media
Suitable extinguishing media: Use water spray, alcohol-resistant foam, dry chemical or carbon dioxide.
Extinguishing media which shall not be used for safety reasons: High volume water jet.

5.2 Special hazards arising from the substance or mixture
Fire hazard: Highly flammable
Specific hazards: Vapours may form explosive mixtures with air. Evacuate personnel to safe areas. Vapours are heavier than air and may spread along floors. Flash back possible over considerable distance. Fire residues and contaminated fire extinguishing water must be disposed of in accordance with local regulations. Possible decomposition products are: Carbon oxides, Smoke, nitrogen oxides (NOx), Sulphur oxides

5.3 Advice for firefighters
Special protective equipment for firefighters In the event of fire, wear self-contained breathing apparatus. In the event of fire, cool tanks with water spray.

SECTION 6: Accidental release measures

6.1 Personal precautions, protective equipment and emergency procedures
Advice for non-emergency personnel: Ensure adequate ventilation. Wear personal protective equipment. See also section 8. Evacuate personnel to safe areas. Avoid contact with skin, eyes and
clothing. Do not breathe vapours or spray mist. Keep away from open flames, hot surfaces and sources of ignition. Ensure all equipment is electrically grounded before beginning transfer operations.

Advice for emergency responders: Only qualified personnel equipped with suitable protective equipment may intervene. See also section 8.

6.2 Environmental precautions
Do not flush into surface water or sanitary sewer system.

6.3 Methods and material for containment and cleaning up
Prevent further leakage or spillage if safe to do so. Dam up. Soak up with inert absorbent material (e.g. sand, silica gel, acid binder, universal binder, sawdust). Sweep up and shovel into suitable containers for disposal. Dispose of in accordance with local regulations. Local authorities should be advised if significant spillages cannot be contained.

6.4 Reference to other sections
See also section 8 & 13.

SECTION 7: Handling and storage

7.1 Precautions for safe handling
Handling: Ensure adequate ventilation. Wear personal protective equipment. See also section 8. Avoid contact with skin, eyes and clothing. Do not breathe vapours or spray mist. Do not burn, or use a cutting torch on, the empty drum. Ensure all equipment is electrically grounded before beginning transfer operations. Keep away from open flames, hot surfaces and sources of ignition. Always replace cap after use. Do not smoke. Do not puncture or incinerate. Take any precaution to avoid mixing with incompatible materials. Take care to avoid waste and spillage when weighing, loading and mixing the product.

Hygiene measures: Handle in accordance with good industrial hygiene and safety practice. Wash hands before breaks and immediately after handling the product. Keep working clothes separately. Remove and wash contaminated clothing before re-use. Keep away from food, drink and animal feedingstuffs.

7.2 Conditions for safe storage, including any incompatibilities
Storage: Storage of flammable liquids Do not store near or with any of the incompatible materials listed in section 10. Keep away from open flames, hot surfaces and sources of ignition. Keep containers tightly closed in a dry, cool and well-ventilated place. Ensure all equipment is electrically grounded before beginning transfer operations.
